

IMPORTANT ANNOUNCEMENT

Ref Nr: **EBR-0176-2022021501**

Date: Feb. 15th, 2022

Page 1 of 2

TO: Customers who may concern

FROM: Product Marketing, CPC

Here with you are informed of our INTENTION to Change production label form

DESCRIPTION:

In order to improve intelligent level and advance our factory, an initiative of introducing a manufacturing executive system (MES) as well as enhancing our SAP system has been carried on for about six months, both the new SAP and MES system will be launched on Mar. 1st, 2022. As a part of the project, our current manually printed production label will be replaced by an automatically generated one where we designed new label templates and generated new lot number rules. However, ordering part-number rules, product specifications, marking on product body and safety certifications will be kept WITHOUT ANY CHANGE. All circuit protection components of the brand BrightKing® are affected, including Transient Voltage Suppressors (TVS), Thyristor Semiconductor Suppressor (TSS), Electrostatic Devices (ESD, TVS array), Metal Oxide Varistor (MOV), Gas Discharge Tube (GDT), Spark Gap (SPG), Polymeric Positive Temperature Coefficient (PPTC) and Negative Temperature Coefficient (NTC).

Since we are in the transition from historical to new labels, stocks of the old label can be still seen from 2022/3/1 to 2023/2/28.

Below is the comparison between the historical and the new labels.

Historical/old production label (65x39mm):

New production label (68x40mm):

- ← Brand Logos
- ← Quantity & Label Serial Number
- ← Lot Number
- ← Ordering PN
- ← Manufacturing PN
- ← Environmental & Safety Certifications Mark

IMPORTANT ANNOUNCEMENT
